

# Vatan singh

I am a cybersecurity expert with experience in web application testing, network penetration testing and bug bounty hunting. I have found multiple bugs on different organization's assets which helped them in improving their security posture. I am also an active member of various online hacking communities which helps me in keeping my skills up to date

## Work Experience

### Associate L1, Publicis Sapient

Jul 2023 - Present

- Managed Security Operations Center (SOC) tickets, ensuring prompt and effective resolution of incidents
- Monitored and analyzed security alerts and logs to identify and mitigate potential threats.
- Provided incident handling and response, working to quickly resolve security incidents and minimize impact.
- Familiarity with common cyber threats, attack techniques, and mitigation strategies.

## Skills

### Technical Skills

- Penetration Testing
- Vulnerability Assessment
- Web application security
- Incident Response
- Ethical Hacking

### Tools/Software

- Nmap
- Hydra
- Metasploit
- Burp suite
- OpenVas /Linux
- John The Ripper
- Bash Scripting

### Languages

- English (Fluent)
- Hindi (Fluent)
- Marathi ( Average)

### Certification/Short Courses

- Certified Ethical Hacker (CEH)
- Ethical Hacking essential(EHE)
- Certified in Cybersecurity (IsC2)

## ACHIEVEMENTS

◦ Awarded by  
**IBSAR College for achieving  
first place in Bug Hunting  
Competition**

**Cloud Security Challenge:  
Capture the Cloud (Jul 2024)**
